# TO LOVE, TO HONOR, TO REMEMBER

COLORS. SHAPES. CUSTOMIZATION.

TIMELESS. ENDURING. CRAFTSMANSHIP.

Our selection is limitless, as you'll soon discover from our vast array of colors, styles, finishes and designs.

Our technology allows an endless selection of images and graphics so that your memorial selection will be both unique and profoundly personal.

Yes, our quality is unsurpassed! Yes, we offer the finest granites, the latest graphic techniques and advanced technology. These alone are not enough. Our flawless creations only happen because of our gifted stone masons — every one an artisan committed to the goal of complete perfection.

Our craftsmanship is done to the highest standards ensuring a memorial that endures. When our designers put words and images to stone, the result is an attractive, expressive and tasteful creation.

Each memorial is personalized to your liking. Choose from our wide selection of artwork or allow us to create something truly one-of-a-kind with a photographic etching or carving.

One of the most challenging times in our lives is the passing of those we love. The process of acceptance can be as long as it is difficult. Along with this process comes the necessity to bid farewell in a manner we feel is appropriate. The last farewell we are able to extend is that of a permanent memorial.

We understand that now might be a difficult time for you and your family. When the time is right and you are ready to choose a memorial, *regardless if your purchase is from our company or not*, please do not make an uninformed decision. Our professional memorial counselor will guide you through the process of choosing a memorial that is both unique and profoundly personal.

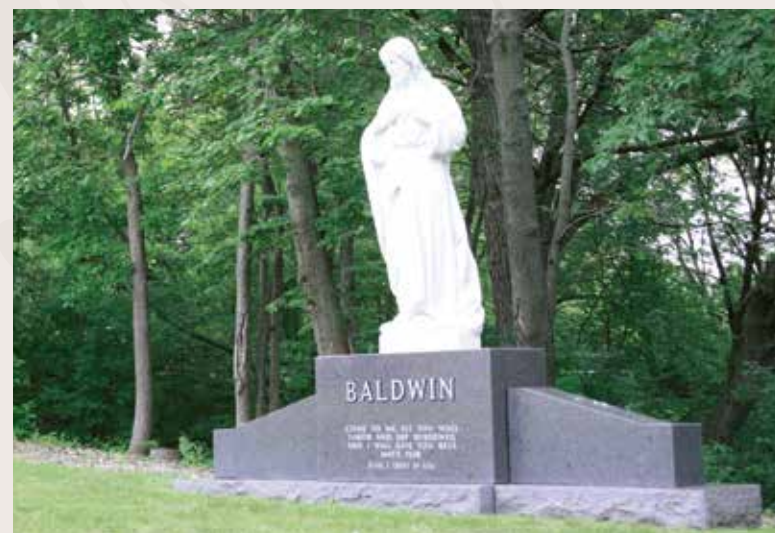

#### Reasons to memorialize:

- Provides a physical place to visit and reflect on your loved one's life and know that they will always be "nearby"
- It assists with closure and emotional healing
- A visible sign of how we value life, making a permanent record of existence
- It keeps the memory of your loved one alive
- To trace your family heritage for generations to come
- To share your life story and honor a life well lived
- To be a part of your community history
- It's often the last thing you can do for an individual's dignity

## CATORI STONE

Catori is a Native American term meaning “spirit.” Each stone has its own unique color and grain structure.

Occasionally “moons” appear on the stone.

Legend has it these “moons” are spots where spirits have touched the stone and left their mark. Each beautifully handcrafted one-of-a-kind stone has a sawn front or natural rustic finish. It can be used as a memorial or signage stone.

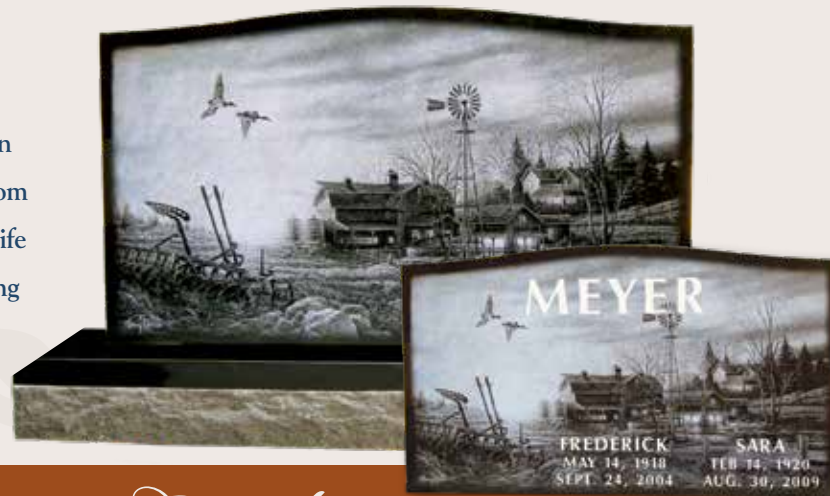

## TERRY REDLIN ETCHINGS

Terry Redlin, nationally awarded and named America's Most Popular Artist, has given the world a great gift with his ability to capture on canvas the memories so many of us share... from our childhood, our upbringing and from our life in America. We are honored to be able to bring TEN specially selected paintings of his, to our monuments.

In 2007, Redlin announced his retirement from painting and print signing. He now lives on the shores of Lake Kampeska in his hometown of Watertown, South Dakota.
